EDUCATION

Babu Banarasi Das Institute of Technology and Management

September 2021 - Present

Bachelor of Technology (B. Tech)

Lucknow, Uttar Pradesh

Computer Science and Engineering

- **Relevant Coursework:** Java, Data Structures and Algorithms, Software Engineering, Computer Network, Database Management System, Operating System, Web Designing

St. Thomas Mission School

April 2020 - March 2021

Class XII (Percentage: 87%)

Lucknow, Uttar Pradesh

St. Thomas Mission School

April 2018 - March 2019

Class X (Percentage: 88.5%)

Lucknow, Uttar Pradesh

TECHNICAL SKILLS

Languages: Java, C, GoLang, Python, JavaScript

Technologies: Spring Boot, ReactJS, Bootstrap, Android SDK

Others: HTML, CSS, JPA, Hibernate, Problem Solving, Software Development, Object Oriented Programming (OOPs), Data Structures and Algorithms (DSA), MySQL, Git, Github

Soft Skills: Communication Skills, Teamwork, Leadership, Innovative, Quick Learner, Flexible

PROJECTS

CafeEase | Java, Spring Boot, MySql, ReactJs, Html, CSS, JavaScript

[Project Link](#)

- Developed a robust **Spring Boot** backend for CafeEase to streamline cafe operations.
- Implemented secure authentication and authorization with **JWT tokens** for Admin and User roles.
- Designed **RESTful APIs** for seamless product and category management by admins.
- Integrated a **shopping cart** feature, streamlining order placement for users.
- Automated the generation of PDF **bills from orders**, ensuring accurate and professional billing for users.
- Enhanced user engagement by incorporating **email capabilities** for notifications and updates.
- Developing a responsive and interactive frontend using React, enhancing user experience and interface design for the CafeEase system.

Locus Buzzer | Java, Android, SQLite

[Project Link](#)

- Developed an Android application using **Java** that allows users to set **location-specific alarms**.
- Utilized **GPS** technology to trigger alarms when users enter a specified range, ensuring timely reminders.
- **Integrated map services** to enable users to select and view alarm locations effortlessly.
- Enhanced user experience with a clean UI and intuitive navigation.
- Designed to help users who often forget tasks while on the move by providing timely reminders based on their location.

EXPERIENCE

Chegg Inc.

November 2023 - Present

Subject Matter Expert in CSE

Remote

- Successfully solved **150+** problems across a wide range of computer science topics, including algorithms, data structures and programming languages.
- Received consistently positive feedback from students for the accuracy, clarity, and effectiveness of solutions provided, resulting in high ratings and favorable reviews.
- Leveraged strong analytical and problem-solving skills to provide clear and concise explanations.
- Maintained an all-time rating of **4.58/5.0**, indicative of consistently providing top-tier solutions and support to students

ACHIVEMENTS

- Solved **250+** questions on various coding platforms like **Geeks For Geeks**, **Codechef**, **Leetcode**, **Hackerrank**, **Pepcoding**.
- One of the **top 5%** of students in the batch of 180, securing a coveted FW (Fee Waiver) seat in college based on performance in JEE Mains.
- In the **Top 13%** coders on **Leetcode** all over the world.
