SUMMARY

Software Development Engineer with hands-on experience building and shipping **scalable backend systems and microservices** in **Java (Spring Boot, Micronaut)** on **AWS** (DynamoDB, Lambda, API Gateway, S3). Skilled in designing **secure REST APIs**, **OAuth2/JWT authentication**, and **end-to-end fintech integrations** (payments, lending, insurance, KYC, tax filing). Strong **DSA** foundation with 450+ problems solved; seeking to drive impact in a backend-focused SDE role.

EXPERIENCE

Simplify Money

April 2025 – Present

Senior Software Engineer

Noida, Uttar Pradesh

Software Development Engineer → Senior Software Engineer

April 2025 – June 2026 → June 2026 – Present

Tech Stack: Java, Micronaut, AWS (DynamoDB, Lambda, API Gateway, S3), OAuth2, CI/CD, REST APIs

- **Promoted to Senior Software Engineer within 14 months** of joining, in recognition of technical ownership and delivery impact.
- Led backend development and **multiple production deployments** of the Simplify Money application, ensuring high availability and seamless releases.
- Designed and shipped a **scalable microservice** to securely access, decrypt, and analyze bank and credit card statements, enabling personalized financial insights.
- **Owned and led end-to-end technical integrations** with key fintech partners including SafeGold, BASIC Loans, SMC Insurance, TaxBuddy, and Digitap AI, enabling use cases such as **digital gold, lending, insurance, KYC, and tax filing**.
- Built and maintained **payment processing flows**; currently driving development of **mutual fund transaction support** (purchase and redemption) for the platform's wealth management expansion.
- Architected and implemented secure **OAuth2 and JWT-based authentication** backed by **AWS DynamoDB**, ensuring compliance with fintech-grade security standards.

TECHNICAL SKILLS

Languages: Java, JavaScript, C, Python

Technologies: Spring Boot, Micronaut, ReactJS, AWS (DynamoDB, Lambda, API Gateway, S3), Bootstrap, Android SDK

Others: REST APIs, OAuth2, JWT, Microservices, CI/CD, HTML, CSS, JPA, Hibernate, Object Oriented Programming (OOPs), Data Structures and Algorithms (DSA), MySQL, Git, Github, Problem-solving

Soft Skills: Effective Communication, Team-Player, Leadership, Innovative

EDUCATION

Babu Banarasi Das Institute of Technology and Management

September 2021 - June 2025

Bachelor of Technology (B. Tech)

Lucknow, Uttar Pradesh

Computer Science and Engineering

- **Relevant Coursework:** Java, Data Structures and Algorithms, Software Engineering, Computer Network, Database Management System, Operating System, Web Designing

St. Thomas Mission School

April 2020 - March 2021

Class XII (Percentage: 87%)

Lucknow, Uttar Pradesh

PROJECTS

CafeEase | Java, Spring Boot, MySql, ReactJs, Html, CSS, JavaScript

Backend Code | Frontend Code

- Developed a robust full-stack web-application using **Spring Boot** and **React.js**, simulating real-world cafe operations.
- Implemented authentication and authorization with **JWT**, ensuring a **100%** reduction in unauthorized access.
- Designed **RESTful APIs** for seamless management of **80+** products accross multiple categories by admin, with an integrated **Shopping Cart** for order placement.

ACHIEVEMENTS

- **Promoted to Senior Software Engineer within 14 months** of joining Simplify Money, recognized for technical ownership and delivery impact.
- Solved over **450** problems across platforms including **GeeksforGeeks**, **CodeChef**, **LeetCode**, **HackerRank**, and **Peppcoding**; ranked in the **top 13%** globally on **LeetCode**.
- Secured a **Fee Waiver** seat by ranking in the **top 5%** of a 180-student batch based on JEE Mains performance.
